I thought that I could forget  
Even tried to tell myself we'd never met  
Though you try, you can't deny  
The beating of your heart

Though you try, you can't deny  
A true love when it starts  
I guess that I was just a fool

I guess I'll go on loving you  
Even though I know our love will never do  
Well, though you try, you can't deny  
The beating of your heart

Though you try, you can't deny  
A true love when it starts  
I guess that I was just a fool
