Take your time, I can wait  
For all the love  
I know will be mine  
If you take your time

Take your time, though it's late  
Heart strings will sing  
Like a string of twine  
If you take your time

Take your time, and take mine too  
I have time to spend  
Take your time, go with me through  
Times 'til all times end

Take your time, I can wait  
For all the love  
I know will be mine  
If you take your time

Take your time and take mine too  
I have time to spend  
Take your time, go with me through  
Times 'til all times end

Take your time, I can wait  
For all the love  
I know will be mine  
If you take your time

Take your time
