

## Buddy Holly "Think It Over"

Visit "[Think It Over](#)" on MotoLyrics.com

Think it over, what you've just said  
Think it over in your pretty little head  
is your love real or only fun?  
Are you sure think I'm not the one,  
Think it over

Yes, think it over  
A lonely heart grows cold and old

Think it over and let me know  
Think it over, but don't be slow  
Just remember all birds and bees  
Go by two through life's mysteries

Yes, think it over

Think it over  
A lonely heart grows cold and old  
Think it over and you will see  
Think it over, and think of me  
Happy days when you and I

Think as one and kiss the blues goodbye  
Think it over  
A lonely heart grows cold and old  
Yes, think it over

Think it over, over and over
