Remember me?  
Vices became my virtues  
They weighed heavy on my mind  
Fearful I've lost every essence of time  
Essence of time  
Can I find the courage to quell this despair?  
Now I'm finding it hard to stay strong  
And this isn't helping me move on

Doctor please stop this medicine  
I want to feel real again  
Let me feel like I can (Feel like I can)  
Doctor don't stop this medicine  
I want to know who I am  
Let me feel like I can

Remember me  
Darkness begins my day  
It's not what I wanted to say  
But more to what I'm not willing to share  
My world is now empty and bare  
This isn't obvious  
In which is written down  
Behind this  
Behind this analysis

I ask myself  
Just to try  
Try sometimes, you'll be just fine  
I ask myself (I ask myself)  
Just to try (Just to try)  
Try so hard (I'm trying so hard)  
You'll be just fine (You'll be just fine)
