It's only natural to be afraid  
I've said all that I can say  
You're ingrained in every memory  
I thought by now that you would leave  
Apologies they don't mean a thing  
(They don't mean anything)  
You said it would be different now  
You never told  
But I found out  
I'm content to be alone  
Please don't cause a scene

There is a darkness in this light  
One which I cannot fight  
Lost amongst regret  
This will never be

There's no sign to say  
That this time this is real  
These are the shadows of my past  
But I'm choosing what to feel

Yeah, I'm choosing what to feel about this  
And everything around me  
Doesn't make sense  
But everybody knows

That I'm playing for keeps  
I'm trying hard to believe  
In the one thing I can believe in, is myself  
If I could only believe in myself

I need to get this off my chest  
I'm doing what I think is best

Cause it's only natural to be afraid  
I've said all that I can say  
You're ingrained in every memory  
I thought by now that you would leave  
Apologies they don't mean a thing  
(They don't mean anything)  
You said it will be different now

You never told  
But I found out  
I'm content to be alone  
Please don't cause a scene
