I can't get that sound you make out of my head no one else around even seems to be noticing I can't even figure out what's making it it's only small enough for me I can't get that sound you make out of my head I can't even figure out what's making it there's a mean bone in my body or do you rub your wings together it feels like fingernails across the moon and I won't take that from you it's connected to the problems that I won't take for an answer because I'd hurt a fly let you go to sleep feeling bad as me let you go to sleep feeling bad it's connected to the problems that I won't take for an answer and I won't take that from you there's a mean bone in my body because I'd hurt a fly
