Came into the darkness from out of the blue
I don't know much but I know what to do
Frozen my mind I believed it so long
I'll right I'll admit I was wrong

Stay out of my nightmares stay out of my dreams
Your not even welcome in my memories
When things are alright and I want what I've got
It's only a moment a terrible thought

Fade out... x 8

If no one thinks of no one
No one believes in no one

If no one fucks with no one
Then no ones afraid of no one

We've all seen enough now it's time to decide
The meekness of love or the power of pride
It doesn't matter if your good or smart
God dammit things fall apart

Lets go for a walk ya lets go for a drive
Don't know how to say thanks for being alive
Lets go for a lifetime lets go for a fling
Don't know how to say anything
