Thrown in the fire with no remorse. Forgotten by the
ones hat are the source. Lied to, mislead to believe
their words. Never understanding pushed back even
more. Leading us to think we have some to say. Their
ears shut and turned the other way. Taking from us
and never giving back. Their words are broken. Set
back from what you've done. Mistreated the trust is
gone. Force fed more fucking lies. Leading us to think
we have some to say. Theirs are shut and turned the
other way. Taking from us and never giving back. Their
words are broken. Set back from what you've done. Set
back from what you've done. For what you've done. (x2)
Mistreated the trust is gone. Cheated the trust is gone.
The trust is gone. The trust is gone. Our state of trust
has been breached. Sucked us dry like a fucking leech.
