My mind's starting to wander
And my head's turn
Every little girl is looking better
And my thoughts are up to no good

I can feel this change inside me
Can't go on this way

[CHORUS]
Willpower weak, temptation strong
Oh, Lord, where did I go wrong
Willpower weak, temptation strong
I just can't go on, oh, no

I don't know how it happened
Was it her or was it me
That kiss I used to look for
Isn't what it used to be

Now other lips are calling
And I would rather be there

[Repeat CHORUS]

Lord know I hate to hurt you
What else can I do
My willpower's weak
My temptation's strong
Oh, Lord, I can't go on

Willpower weak
Temptation strong
I just can't go on
Can't go on

[Repeat CHORUS 3x to fade]
