(Verse 1)

Deep inside, I hide the words I want to say  
Kept far from light, I'm tryin not to speak my mind  
Why do I tell everyone I know  
That this just feels wrong  
Its time to make ammends

(Pre chorus)

And I'm feeling for my answers  
And I'm trying to find my way  
The truth is that I don't know what to say  
And I'm fighting for my reasons  
And ill take this all the way  
The fact is that I don't care what you say

(Chorus)

So where do we go when  
The doors keep on closin  
You're wasting your time don't stand in our way  
So now we have choosen  
To just kick them open  
Take this as a sign don't throw it away

(Verse 2)

Years go by and feelings have but all run dry

I've asked you why it took so long to see the light  
Why do I tell everyone I know that I have messed up  
This time ill have to pay

(Pre chorus 2)

When I finally find the answers  
And I see I've found my way  
Then the words will be there right in front of me  
And I'm standing by my reasons  
Up until this very day  
The truth is that I don't care what you say

(Chorus)

(Bridge)

First time you thought you had a reason

Two times you try to take a stand but  
All this time, you fell in line  
Third time you thought you had the answers  
Four times you should have finally seen  
Its not my time, to fall in line again

(Chorus)
