Break Out!  
What the Hell let's go  
Break Out!  
Where the Darkness rolls (x3)

Hey!  
You wanna wanna breakout  
Hey Hey!  
Well out time is right now

Day turns into night  
then we turn into frightening things

Chorus:  
So what the hell lets go  
right when the darkness rolls  
Drive me Crazy all night long  
'cause it ain't getting better, no it ain't getting better  
for you (x2)

By every rising moon  
in the darkness we shall move alone  
from the shadow  
creepy crawly sin  
the corruption of the young  
Begins!
