Everyone's in love with me
Sarcasticly conceited
But you'll read into it too deeply
Then regret me all the same
It started in the glory days
My eat shit attitude
Back when mother drank herself to sleep
And my father, well he paved the avenue
Everyone's in love with me
this beautiful disaster
Beggin you kill me please, just kill me please
Everyone's in love with me, in love, in love, in love
I'm beggin you kill me please, just kill me please
There's a place in hell for me
I've heard it all before
And when I die, You'll celebrate I'm sure
I'll leave the kids inheritance of cigarettes and porn
There's no price tag on love, love, fuckin love
Everyone's in love with me
this beautiful disaster
Beggin you kill me please, just kill me please
Everyone's in love with me, in love, in love, in love
I'm tellin you kill me please, just kill me please
Gather round give me your ear, I'll try to be sincere
We're destroying something beautiful
And I'm beautiful, just look at me
Ha ha
Everyone's in love with me
This beautiful disaster
Beggin you, can you kill me please, just kill me please
Everyone's in love with me
Concietedly I mean, I'm tellin you
Kill me please, just kill me please
Just kill me please
Kill me, Kill me, Kill me, Kill me please
