

## **Bullets And Octane "My Disease"**

Visit "[My Disease](#)" on MotoLyrics.com

Wake up and get dressed  
Check your pulse  
And tie me in  
I can't think  
With you staring at me  
I'll smack that look  
Right off your face-  
Line 'em up and suck one down with me  
It keeps me believing...  
I Don't want to think  
I don't want to breathe  
This is my disease  
It'll be there in the morning  
will be there when I wake  
The same reality

Well back up  
And strap in  
This could be one hell of a ride  
And I  
Can't guarantee my friend  
You will make it out this time-  
Line 'em up, and suck one down with me  
It keeps me believing

I Don't want to think  
I don't want to breathe  
This is my disease  
It'll be there in the morning  
It'll haunt me as I sleep  
This feeling's killing me-

This is My Disease
