"Save Me Sorrow"

Visit "[Save Me Sorrow](#)" on MotoLyrics.com

We've been waiting in a sea of destruction
Sinking further in disease and temptation
Save me sorrow. Be gone
Up ahead there's a sun that's arising
In a world that I pray to remind me
Save me sorrow.
Be gone by dawn. Last aspiration
Fear divides my
Pain and pleasure

All night long, all night long
Over and over tonight
All night long, all night long
Over and over tonight

In the church were the reasons of my tears
And the ghost of my youth was near
Save me sorrow. Be gone
Now I see what I fear is in front of me
All the times all I needed was to save me
Save me sorrow. Be gone

All night long, all night long
Over and over tonight
All night long, all night long
Over and over tonight

Just give me a chance...just one sign
Make me believe, it's in your heart, it's in your eyes
I want it all
Let go
