1234!

Lace up the all-stars and

head on down

Grab some pals

cause the punk rock show's in town (Yeah!)

Get the show on

Stop for no one

And play away and let the music rock on (Go!)

Open the doors and

pack 'em in

one big pogo

and now the show begins (Yeah!)

Throw your fist up

Live to disrupt

Find the pit and then go start some shit up

Oi! Oi! Oi!

The show is done

the bands break down

and its on the road

to another lucky town (Yeah!)

It'll be back here

same time next year

so come back down and start

some pits and Oi cheers
