

Bullgooseloony "Radio Catastrophe"

Visit "[Radio Catastrophe](#)" on [MotoLyrics.com](#)

what if one day
the music just stopped
and you couldn't even
sing a song?
what if one day
all the radios turned off
and you couldn't even
sing along?

chorus:
looks like another
radio catastrophe
o yeah
another audio emergency
thats affecting all of
humanity
by driving us all to insanity

drivin in your cars

sittin in your rooms
doin everything and thinkin
nothing of the tunes
well what if one day
they all went away?
what would you do?...
thats right, you got nothing to say

chorus

so now, dont you see?
why the music's so important to me
it gives me a place
where i belong, yea
a place where i'll always be
