Have I fucked you yet, do ya wanna make a bet  
I'll get you so hot you'll leave the barstool wet  
So what if we just met I wanna be your man  
I can melt in your mouth and melt in your hand  
I really think that outfit would look better on my floor  
And your making me look bad I told my friend you were  
a whore  
But I adore every single bone in your body  
Especially when that bone happens to be attached to  
me

You know your poor ass boyfriend can't buy you no  
jewelry  
Can I buy you drinks or do you want the money  
You know I got more money than a girl like you could  
spend  
You must not of saw my Benz. I'm the man Girlfriend

Another day, another way, another place, another time

another boy, another girl, another lie, another line  
Of all the things I could say  
Things that I could say that time  
I just looked into your eyes  
Hey baby what's your sign

My friend over there wonders if you thimk I'm cute  
But shoot, I can give my man the boot  
We'll go back to my place where nobody will see us  
We really need to get something straight between us  
We're gonna fuck tonight I really hope you're there  
Could that possibly be a mirror in your underwear  
Cause I swear I can see myself in your pants  
Pop 2 roofies in her drink than ask the bitch to dance
