There's an angel in the sky watchin' over me  
There's an angel in the sky watchin' over me

They say it's always darkest before the dawn  
And that you don't know what you got until it's gone  
I thought I knew what I had but I was wrong  
And that's why I gots to write this song  
Now, come on, now, come on

Say man, I thought it would've been a long time  
for us  
And many more years on the grind for us  
I thought the future held a lot for us both and it was  
brighter  
We were super tight but finna be super tighter

I guess I just assumed we had more time for us  
To make more music and write more rhymes  
But never in my life could I ever have seen  
That I would ever have to lose the other half of my  
team

And take away the glitter the gold and the gleam  
Say man, I wonder to myself what does it all really  
mean?  
Nothing without the people you love, say man I miss my  
brother  
But I know he's looking down from above and  
there's an angel

There's an angel in the sky watchin' over me  
There's an angel in the sky watchin' over me

It all began on Shreveport Ave sittin' off in the  
den  
Making beats and puttin' paper to pen  
We was determined to win and you couldn't tell us  
different  
Mama West was cool with it but Monroe kept  
trippin'

It seems just like yesterday sometime

Sittin' in your bedroom writing dumb rhymes  
Man, you makin' beats on the Ensoniq  
And we was smokin' dirt weed 'cause it  
wasn't no chronic

I still remember when we started the crew  
It was me, Mitchell Queen, Jamal Jackson and you  
Started out as 4BM but then we ended with two  
That's when we introduced the world to the U

To the G to the K, Underground Kings, DJ Byrd  
Pimp C and Bun B we kept it G, say word  
Who would a known back in '92, in  
2008 I'd have to  
Write this song sayin', 'I miss  
you' but it's true

There's an angel in the sky watchin' over me  
There's an angel in the sky watchin' over me

Just for the record let me go ahead and say  
I love my brother Pimp C and man, I miss him everyday  
Yeah, my heart still hurts and the pain's still  
fresh  
But I'ma put God first to keep that pressure off my  
chest

And remind me that I'm blessed to have had him as a  
friend  
A ride or die homie that was with me till the end  
Real talk man, we was closer than kin  
And I know that I'll never have a partner like that again

So Chad Butler I just want you to know  
I keep your memory close, I'm never lettin' it go  
And they gon' always remember that you was  
here, mayne  
'Cause I'ma make 'em remember, that's why I'm  
here, mayne

Yeah, it's still hard and I still cry  
But you and God keep me strong, so I'ma still try  
Reppin' this UGK, now won't I?  
'Cause through your music you live forever, so  
Trill don't die

I know you're watchin' over me, last night I saw you in  
my dream  
At the crossroads, I'll see you there  
My friend, my brother till the end can't wait to  
see you again

Save a place in heaven for me

There's an angel in the sky watching over me

There's an angel in the sky watching over me
