[Prelude:]

Life is short so go and try - grab all you can before you die

Is this you - you're going nowhere

Someone came and died for you - but you just want your pleasure

You - you're going nowhere

Blowin' out your wheels as you rip on by out of sight

The people stare - you perform your dare in the night

You choose your fun more than God's own son, why do you run?

You'll go insane when the devil's name runs your guns

[Chorus:]

Going

Nowhere

Fighting

Jesus Cares

You're runnin' the town, messin' around to the core

Your life in in shrails, pleasure prevails in the door

Why don't you see, new life is waiting - it's free

God's love is here and He wants to free you and me

[Chorus]

Blowin' out your wheels as you rip on by telling why

'Cause you found that Jesus made you free

Now you see

Going

Somewhere

Heaven

You'll be there

No time

To waste

Soon we'll

See His face
