Light the Flame
Here you are
So close and yet so far
I see you falling
Your flame is lit no more
I'm always there, in time of your despair
When I knock, you're never there
Chorus
Light the flame
Take all the love I gave?
I love to give you all the love that's in my hand
Light the flame
My gift to you has been paid
Receive the King, His ?? await your ??
Does your guilt descend
Till you ? the bitter end
Are you so confused
Can't you see you're being used
I just want to make you free
But you go on just, fighting me
Chorus

Here you are
So close and yet so far
I see you falling
Your flame is lit no more
I can make you free, trust in me
Take all ????? and see

Chorus
