Creepy calling of a long short
Baby if you feel me
You gotta set me free
Yuppies getting on my nerve
Oh baby come and get me
You gotta set me free
Because I want you
Because I need you
Because I can't stop even if I
want too
No regrets
No regrets
Oh oh oh

I don't wanna be a hero
I'll be a zero
If that's no good to me
Hey
We are the preview
Rock and roll the issue
Cause even I want to be like you
I don't have the guts
I'll never get through
Oh no
This is what I want
My escape dance
Everybody wants to be like
everybody out there
Put on a face and stare
Let me hear you say bunkers
Baby now you're with me
It's just you and me
Because I want you
Because I need you
Because I can't stop even if I
want too
No regrets
No regrets
Oh oh oh

I don't wanna be a hero
I'll be a zero

If that's no good to me
Hey
We are the preview
Rock and roll the issue
Cause even I want to be like you
I don't have the guts
I'll never get through
Oh no
This is what I want
My escape dance
I don't wanna be a hero
I'm just gonna be a zero
I don't wanna be a hero (hero)
I'm just gonna be a zero (zero)
No regrets no regrets

I don't wanna be a hero
I'll be a zero
If that's no good to me
Hey
We are the preview
Rock and roll the issue
Cause even I want to be like you
I don't have the guts
I'll never get through
Oh no
This is what I want
My escape dance
I don't wanna be hero
I'll be a zero
If that's no good to me
Hey ho let's go
Rock and roll the issue
Cause even if I want to be like
you
I don't have the guts
I'll never get through
Oh no
This is what I want
My escape dance
