You are a soldier  
A rising sun  
Wait for the heyday  
Look far away  
And believe in yourself  
Your name's on a shelf  
A legend

You are a soldier  
The chosen one  
Bring back the heyday  
Look far away  
With respect and decay  
Forever we'll stay  
Together

And singing life is all that we need  
But the lies is all that we see  
Raise your hands high up in the sky  
Missing secrets you will find  
In your heart (3x)

You are a soldier  
Light up the night  
We are the soldiers  
We'll stand and fight  
At the end of the day  
Forever we pray  
For the legend (the legend)

And singing life is all that we need  
But the lies is all that we see  
Raise your hands high up in the sky  
Missing secrets you will find  
In your heart (3x)

And singing life is all that we need  
But the lies is all that we see  
Raise your hands high up in the sky  
Missing secrets you will find

And singing life is all that we need

But the lies is all that we see  
Raise your hands high up in the sky  
Missing secrets you will find  
In your heart (Its in your heart)
