Baby are you OK  
I hope that you are in good shape  
And you're not tied up in stress  
And if it's my luck you'll wear a dress  
10 minutes past your birthday  
Kept you waiting for me  
Well I got stuck finding the cake  
And that's why I was late

Deep sea diving forever  
Under the pressure  
If it's too much to ask  
And kiss this rip off the rumors  
Light up the humor  
Hitch a Nadia ride

The story sings and the chemistry wins  
For both of us a dream  
Just let them go and turn off the lights  
Cause it's you and me tonight  
You and me tonight  
Woah oh oh oh oh  
You and me tonight  
Woah oh oh

Super magic fever adopted  
Desperate desire for the queen  
I'll be bubbling in between  
And roll the dice  
Twice if you want to  
Red light to break down kick me out  
To the end without a doubt

The story sings and the chemistry wins,  
For both of us a dream,  
Just let them go and turn off the lights,  
Cause it's you and me tonight  
You and me tonight  
Woah oh oh oh oh  
You and me tonight  
Woah oh oh oh oh oh oh  
You and me tonight

Woah oh oh oh oh  
You and me tonight, tonight, tonight

Now the times a machine  
Just like the scene  
Glory of the morning makes me sing  
It makes me sing

And if you wanna go  
Just take it slow  
Crack a joke and walk right out the door  
It's who you know

The story sings and the chemistry wins  
For both of us a dream  
Just let them go and turn off the lights  
Cause it's you and me tonight

You and me tonight  
Woah oh oh oh oh  
You and me tonight  
Woah oh oh oh oh oh oh oh  
You and me tonight  
Woah oh oh oh oh  
You and me tonight, tonight  
It's you and me tonight  
You and me tonight...
