Spread your lies through the herds of sheep.
The ape king will get his keep.
We obey down on our knees.
Forever slaved.
We can't break free.
Fuck the pigs.
Corrupt. Unjust.
You just feed their power lust.
And no one's safe. No one's safe.
This is the curse of the human race.
No time for the weak.
No time for anything, but his greed.
We don't fear the sun.
We don't fear anyone.
No one's safe.
Fuck your power trip.
You're full of shit.
Your fucking judgment makes me sick.
You spread your lies.
You create hate.
You've promised the end of days.
