"Less And Less"

Visit "[Less And Less](#)" on MotoLyrics.com

Every day means less and less.

I just waste away.

A head full of shame.

And I deserve nothing.

I just fucking waste away.

Don't live for tomorrow.

Fuck today.

And it's true what they say.

Nothing gold can ever fucking stay.

Show me no more love.

Buried by my own mistakes.

My back is weighed down with my burdens.

My spine is starting to break.

So cold and barren

Now it's too late.

Nothing gold can ever fucking stay.
