Girl the way you smile
There's something in your eyes that just drives me wild
Thinking that I would like to spend some time, cause
damn you're fine
Give me butterflies; I try to make a move but I can't
unwind
Sending chills down to my bones when you pass me by
Can't get you out my mind

There she goes, there she goes
That pretty little thing
If only I could make you mine

Wow, there she goes again
I gotta make her stay
Girl you could be my friend
Or you could be my girlfriend
(Would you be my boyfriend?)
Girl if you want to let me put it on you baby

Baby tell me why, you're playing with my mind
Can't you read the signs, oh
'Cause girl you got me paralyzed, hypnotized
Going outta my mind, wish you were my girl
