Just try and understand our claims  
That your mind can't remain this way  
If you just stayed here for the while, and listened  
Cause you've got everything to lose  
With your pride set you can't be moved  
If you just faced us that day you'd be here  
You always knew when you walked away  
No forgiveness  
You never cared what you threw away  
No forgiveness

Cause you've got everything to lose  
With your pride set you can't be moved  
If you just faced us that day you'd be here  
No forgiveness  
You always knew when you walked away  
No forgiveness  
You never cared what you threw away  
No forgiveness  
You always knew when you walked away  
No forgiveness  
You never cared what you threw away  
No forgiveness

This feels like forever and it's eating us inside  
With hopes script ending  
We will wait for you  
You always knew when you walked away  
No forgiveness  
You never cared what you threw away  
No forgiveness  
You always knew when you walked away  
No forgiveness  
You never cared what you threw away  
No forgiveness

(No forgiveness)  
(No forgiveness)
