Did you ever think I would find out,  
guess I never thought you'd be like this so self  
absorbed.  
How could I finish this with so much hate,  
wasted time on my mind and I just can't break it,

I can feel it growing in my mind,  
countless hours leaving us behind,  
what was said, what was done,  
I'd never wish this shit on anyone,

We're gonna fall away and burn this to the ground,  
we've got a choice to make,  
and turn this shit around and if you're on your own,  
look into the sky, all alone, don't let it eat you alive,

So many sleepless nights never knowing what would  
come of this,  
as soon as you walk back into my life,  
you think I care, I never cared,  
I'll die before I see your fucking face again,

You know you had your chance,  
You know you had your fucking chance,

I can feel it growing in my mind,  
countless hours leaving us behind,  
what was said, what was done,  
I'd never wish this shit on anyone,

We're gonna fall away and burn this to the ground,  
we've got a choice to make,  
and turn this shit around and if you're on your own,  
look into the sky, all alone, don't let it eat you alive.

It's not the first time that I've seen this shit,  
it's like I'm falling no direction and I'm getting sick of it,  
getting sick of it,

It's not the first time that I've seen this shit,  
it's like I'm falling no direction and I'm getting sick of it,

getting sick of it,

We're gonna fall away and burn this to the ground,  
we've got a choice to make,  
and turn this shit around and if you're on your own,  
look into the sky, all alone, don't let it eat you alive,

You know you had your chance,  
You know you had your fucking chance.
