I'm pretty sure that you're not good for me
But I like it
And I know that you know what you do to me
And everyone else in the room
You're professional at breaking hearts
It's so automatic for you
It's like there's a switch that makes you start,
You couldn't turn it off if you wanted to
Like you step into the room and just press play,
Like you step into the room and just press play
No one has to tell you what to do,
It's automatic
You don't even have to make a move,
It's automatic
Everybody wants to be with you
It's like you just press play,
Like you just press play
You're a heartbreaker,
And you're a mind eraser
It's so automatic with you
I know I should leave
But I can't seem to walk away,
I can't seem to walk away
You could care less about what you do to me,
But you like it
It's easy to see you're making a fool of me,
There's nothing that I can do
You're professional at breaking hearts
It's so automatic for you
I don't know why you make it so hard,
For someone to love you
Like you step into the room and just press play,
Like you step into the room and just press play
No one has to tell you what to do,
It's automatic
You don't even have to make a move,
It's automatic
Everybody wants to be with you
It's like you just press play,
Like you just press play
You're a heartbreaker,
And you're a mind eraser

It's so automatic with you
I know I should leave
But I can't seem to walk away,
I can't seem to walk away, away
You need to let your feelings take control,
Just switch it into manual
You're keeping your heart where I can't have it
You're so automatic
No one has to tell you what to do,
It's automatic
You don't even have to make a move,
It's automatic
Everybody wants to be with you
It's like you just press play,
Like you just press play
You're a heartbreaker,
And you're a mind eraser
It's so automatic with you
I know I should leave,
But I can't seem to walk away
