Cave in and try to take away
All that I have, all I betray...
So much damage I've done
Well this I know, that I just fail

Turn me on me
Turn me on me
'Cause this is everything I've stripped away
I've stripped away

This is me, well this I know
This is me, well is it?

Well the youth has certainly gone away
And at times I'd like to erase...
Please don't see that I can't have loyalty
'Cause I just fail

Turn me on me
Turn me on me
'Cause this is everything I've stripped away
I've stripped away

And I have tried to sit you down and take the fall
Look you in the eye and tell you it all
And I have tried to sit you down and take the fall
To look you in the eye and tell you it all.....I fail

'Cause this is everything I've stripped away
I've stripped away

This is me, well this I know
This is me

I fail...

'Cause this is everything I've stripped away
I've stripped away
