Hey!

Who broke in and kicked me out, here, into heavy
weather?

This screen hangs a sign in black and white, but
doesn't

Make it better

"Sometimes, very often, all the time"

No: "never, almost never"

This thorn in my side?

It's blind trial time:

Wheels slow, perpetually spinning

All the locks are broken now, and I know it's an inside
Job

Much better now, I'm hollowed out, I'm stepping out

But this motion isn't action

This thorn in my side?

It's blind trial time:

Wheels slow, perpetually spinning

This drug was never approved, but this trial is They
give

The placebo to you, maybe you'll live This thorn in my
Side?

It's blind trial time:

Wheels slow, perpetually spinning 'round and spinning

'Round and spinning around in my grave, again
