Yeah!

Bet you don't remember
When that feather burns
Try to remember just how long
Try to remember just how strong

Secrets falling down

Tools just like you
Which I'll take your blames
Just last season
I lost my reason
Still I brought along

Secrets falling down

Fools it all the way
I did all the way
Push it all the way
Push it all away

Don't tell and remember
Fate without a stand
What I want now, boy
I won't lie
When I falter
When I die

Secrets falling down

Push it all the way
Push it all the way
Push it all the way
Push it all away

Get up!
