"Super Modern World"

Visit "[Super Modern World](#)" on MotoLyrics.com

I had a land I had the knowledge
To plant a seed and make it grow
I built me a house with my bare hands
My feet are on the ground
I can't believe that the things I buy
Are any of the roots that I can't find
It's all around us straight in your face
It comes from wonderland and your money can't buy

We don't remember what the old men said
'Inside yourself you find the truth'
Look at the sky
We're reaching the end
The pictures on your screen will tell you the same
I can't believe that the things I see
Are any of the roots that I can't find
It's all around us straight in your face
It comes from wonderland and our money can't buy
We all live in a modern world
A super modern world
