Take deep breaths in and gather the night
A hole that's hardly summed up by taking away
Time unlocks the stall
When there's nothing left to lose
Nothing can be lost

I don't know if anything has changed
But the hope of that changes everything
Hope builds change

Isn't the place of the plagues
That surrounds me and my open graves
But it's the fate of the haze
That put darkness in my way I escape

I escape darkness in my own way

Fatal has become the solid fight
Unending endings that loom into my darkest
Light unlocks my falls
When there's nothing left to lose
Nothing can be lost

I don't know if anything has changed
But the hope of that changes everything
Hope builds change

Isn't the place of the plagues
That surrounds me and my open graves
But it's the fate of the haze
That put darkness in my way I escape

I escape darkness in my own way
I escape darkness in my own way

[Solo]

I escape darkness in my own way
I escape darkness in my own way

I don't know if anything has changed

But the hope of that changes everything
Hope builds change

Isn't the place of the plagues
That surrounds me and my open graves
But it's the fate of the haze
That put darkness in my way I escape

I escape darkness in my own way
I escape darkness in my own way
