[Music: Leandro / Marcelo Lyrics: Leandro]

In the begining of bloody wars soldiers fight for their
lives
But many are wounded and started to die cannot see
the sunrise
Soldiers marching in the way of death
Feeling pain and fear
Cannot change their destiny they shed tears from their
eyes
In the sky signs of blood for all eternity
Destruction fire cannot be controled by man

[BRIDGE]

Women and children are praying
While the soldiers are dying
In this war that will never have an end

[CHORUS]

They live in shadows trying to save their lives

Escaping death to live in peace someday
Their hearts want to touch the skies
Not became one more shadows of the wars

[SOLO: GERALDO SOLO: KIKO LOUREIRO]

Screams of pain and agony sounded in this battle
fields
When the night starts to fall, suffering bells will ring
Many guns and many deaths helpless children
suffering and crying
Soldiers faces show the sadness but they have to fight
On the ground, the dust from misery
Shadows of the wars not giving hope to live

[BRIDGE - CHORUS]
