Got a burning love, and I'm burning up inside
I got dirty blood, dirty feelings I can't hide
At night, these prying eyes
Temptation burning up my mind
Heat-seeking x-ray eyes, night vision x-ray eyes
I got this burning in my mind
The father's blood running through me
The father's blood, it's gonna do me in
I can't win - so suck me down again
Into this two way glass
Where all's for sale and nothing lasts
I've got this burning love
I've got this burning love
Temptation burning up my mind
I've got this dirty blood
I've got this burning love
Night visions tearing up my eyes
And I can't hide
