Never forget what you did, never forget what you've
Done.

Waking up cold everyday, you've betrayed now it's too
Late to make amends. For the twisted lines you pull, I
Want to see you fall.

Liberties you took, not just with me but with those who
Were looking out for you. Now you've played the fool, I
Want to see you burn.

Fear is the enemy.

My outlook's changed since your disgrace and I'll never
Forget your fucking face. For as long as I live I'll
Regret the day I trusted you.

I've learnt the lessons and now we're through, only I

Have honour, only I have truth. For as long as I live
I'll regret the day I trusted you.

We come up on the same streets but the difference is
Clear between you and me. You never had no heart, no
Pride, no soul. I want to see you fall.

Is the treachery running through your veins a family
Trait or your own shallow ways? I was brought up better
Than that. I will watch you burn.

I have my family to thank for taking the time to raise
Me right. I won't live a lie. Fate will get you in due
Time or I'll even the score further down the line.
