I live in a sorrow too deep for me
What has befallen me?
Nightspirit came to embrace my soul
The sun has betrayed me, defiled by cruelty
What has brought thee rivers
Greets me with thunderous waves of hate

Shot down; fall from grace
The tears of death undo my face
The warriors will take my life
Betrayal won't remove the knife

Now avenge my living, a living too cold for me
The end will greet me
Darkest cloud has come to possess my soul

It was all so innocent, children of the savior
But the angel's inferno is all the earth can understand
Where did we go wrong?
The madness in our veins is growing stronger
It's not enough for us to pray
I hope you see it now, that heaven is condemned
And I, I whisper suffering, and bid this world a cold
farewell

Shot down; fall from grace
The tears of death undo my face
The warriors will take my life
Betrayal won't remove the knife
