Stupid humans with their fake beliefs
Believing something that was made up years ago
Forcing social regression
Pushed onto the young while they're still sponges
A disgusting practice
Upheld by the church that preach to the sheep of god
Whilst others pay with their lives
Evil, no regrets
Pray on the hope for perfection
Deceitful cunts give misdirection
Fist fuck those pedophiles that hide behind a veil of
trust
Fucking hypocrites die
Fucking hypocrites hoarding Nazi gold
Greed. Filth. Abuse. Corruption
To create pain, death, false hope for glory
Beat to death for your false god
Dare to live
I'll send you to your god
The only way this world will ever be rid of all pointless
hatred
Is to end religion in all it's forms and cheap disguises
Believe in something that was made up years ago
Forcing social regression
Fuck your gods
