

Burning Spear "Changes"

Visit "[Changes](#)" on MotoLyrics.com

Sometimes all over, people got to change them say
Sometimes all over, people got to change them say.

The big man got to change them say.
The small man got to change them say.
The politicians got to change them say.

Sometimes all over, people got to change them say
Sometimes all over, people got to change them say.

Presidents got to change them say.
Governors got to change them say
Royal families got to change them say.

Sometimes all over, people got to change them say
Sometimes all over, people got to change them say.

And the islands,
African continent,
And foreign countries,
Two wrongs cannot make on right.
Jah know we don't need to fight.

Sometimes all over, people got to change them say
Sometimes all over, people got to change them say.

Prime ministers got to change them say
The mayors got to change them say.
Senators got to change them say.

Sometimes, you got to look
For your congressman, to
Straighten things out.

Sometimes all over, people got to change them say
Sometimes all over, people got to change them say
