The time has come when I and I should know that we
are one

The time has come when I and I should know that we
are one

We are one

We are one

We are one

Oh yes we are one

The time has come when I and I should know that we
are one

The time has come when I and I should know that we
are one

We are one

We are one

We are one

Oh yes we are one

Jah people

We are one

Jah people

We are one

Jah people

We are one

Oh yes

We are one

Mmm we are one

Jah people

We are one people

Jah people

We are one

Jah people

We are one

Oh yes

We are one

Mm we are one

People of the world

We are one people

People of the world

We are one
People of the world
We are one
Oh yes
We are one
Mm we are one

People of the world
We are one people
People of the world
We are one
People of the world
We are one
Oh yes
We are one
Mm we are one

We are one
We are one people
All people
On earth
We are one
The world is for the people
And the people is for the world
The world is mankind
Any place that I go

We are one...

The time has come
When I and I should move as one
The people of the world we are one
Oh we are one
We are one

Jah people
Oh people
World people
Jah people
Oh people
World people

The time has come when I and I should know
Should know that
That we are one
The time has come when I and I should know that
Should know
That we are one
We are one people...
