Is a lucky ting I never get swell headed
Is a lucky ting I never get swell headed
And started to run run run, I will never run away
And started to run run run, I will never run away
Do you hear?---
I never run away;
I never run, never run, never run away.

Deh an dem doth hate I, deh woulda feel so nice, so
nice.
Deh an dem doth fight against I, you should see dem
rejoice,
and tell I to run, to run run run, I will never run away,
run run run, I will never run away.
Do you hear?---
I never run away; I never run, never run, never run
away.
I and I will never run away!

My black brother call me, call me, and he reason with
me.
Everything he tells me, tells me. oh yes it's true.
That's why I will never, run run run,
I will never run away.
Do you hear?---
I never run away; I never run, never run, never run
away.
I never run, never run, never run away.
I will never, will never, could never, will never.
I and I will never run away! x2

Never run, never run, I will never, will never, will never,
could never,
never run, never run---I and I will never run away!
never run never run
