"Take Over"

Visit "[Take Over](#)" on MotoLyrics.com

I tried to run
I tried to fight you
I'm done
I'm giving up
I've learned to trust you, your love

Now I'm singing...
Can you take over, take over
Can you take over me
I've been here over and over again
Here on my knees
I'm only closer and closer to where I want to be
When you take over, take over
Can you take over me

I tried before
To let go and I just hold on more
Amazing Lord
I need the strength to let go and be yours

So now I'm singing...
Can you take over, take over
Can you take over me
I've been here over and over again
Here on my knees
I'm only closer and closer to where I want to be
When you take over, take over
Can you take over me

I surrender all I have
And I surrender all I am
As I remember what you've done to set me free
I just want to say...

(Chorus) (2x)

Take over me
Take over me
