Beware, beware,  
There's danger in the air.  
Have no fear bond is here,  
They'll never get the jewels.  
Bond is here have no fear.  
There goes a spy,  
There's evil in his eye.  
Have no fear bond is here,  
The formula is safe  
With old double o seven.  
He's got a red-head in his arms.  
Though he's a lover,  
When you are in trouble  
Have no fear.  
Look who's here: james bond.  
They've got us on the run  
With guns and knives,  
We're fighting for our lives.  
Have no fear bond is here.  
He's gonna save the world.  
Bond is here have no fear...(fade)

(note: this arresting piece of material was performed  
on the original  
Soundtrack for the motion picture by the incredibly  
popular herb alpert  
And the tijuana brass. it was later issued as a single  
recording by the  
Brass. a & m records chalked this recording up as one  
of the group's  
Top-selling efforts. )
