This storm will come tomorrow, not today  
I better walk on my own, stay  
You don't have to be strong, you just have to feel  
Something has to be done

Nothing they say will bring me down

I just want to let you know, I just want to let you know  
that  
That you are a fake  
There is only one, there is only one chance  
One moment to live

There is so much more that you will know  
There is so much more that you will know

Nothing they say will bring me down

I just want to let you know, I just want to let you know  
that  
That you are a fake  
There is only one, there is only one chance  
One moment to live
