"Made In Paris"

Visit "[Made In Paris](#)" on MotoLyrics.com

When there's a moon above
It is something to see how the fellas follow the girls
They're all in search of love
There isn't a lover, who doesn't discover
That if it's made in paris,
You can bet that there is a girl for every boy

Dreams are made in paris every night
They come true, can't you hear, paris calling you

The girls are everywhere
The scent of, their perfume, is meant to go right to
your head
So don't just sit and stir
If the fun and the laughter, the good times you're after
Can just be made in paris,
If you don't know how to speak french, she'll
understand

Love is made in paris every night
Rain or shine, go get yours, I've got mine

Find your dream!
Find your love!
I've got mine!
Go get yours!

If it's made in paris,
If you don't know how to speak french, she'll
understand

Love is made in paris every night
Rain or shine, go get yours, I've got mine

Find your dream!
Find your love!
I've got mine!
Go get yours!
