Frozen hearts are alive in the night
Frozen hearts are alive in the night

With the blood on our hands, we searched for an happy
ending
No return! Don't you understand, that I will never send
you the letters?

She wrote for me
She wrote for me

All the lies are fading to trust
Frozen hearts are alive in the night
In the night

I will follow her love
A red sun was rising
As the knife drove into her skin
What have you become?

To forgive is to be weak
I never knew that you could fall so deep
I bleed, I hate you for who you are
And for what you have done

She's a dream, a ghost, a shadow
You took her away
She's a dream, a ghost, a shadow
You took her away from me

I saw the future in her eyes
You took her away
I can still see her face
You took her away
Murderer!

I will follow her love
A red sun was rising
As the knife drove into her skin
What have you become?

I will follow her love

I will follow (follow)

You will pay for the consequences
Her love was the only reason
You are walking in the wrong direction
And no one can ever return
Return!

I will follow her love
I will follow
