Got all these daze to alleviate  
Got all these ways to vent it straight  
Intershitty life it tries to bring you down  
You'll still be young  
Where did this life go

Don't dress your face all funny  
You suck the life outside of me

Forever blowing bubbles all away  
There is nothing left to lose  
There is nothing left to gain  
Forever blowing bubbles all away  
There is nothing left to lose  
There is nothing left to gain

Bubbles

Deconstruct your modern fable  
Homogenize your stake laid angel  
Stop beating me intr-petation  
We're a sick sick sick  
We've watched it created

Have the means to hang out monotony  
I found it inside of me

Forever blowing bubbles all away  
There is nothing left to lose  
There is nothing left to gain  
Forever blowing bubbles all away  
There is nothing left to lose  
There is nothing left

She's forever blowing bubbles all away  
There is nothing left to lose  
There is nothing left to gain  
Forever blowing bubbles all away  
There is nothing left to lose  
There is nothing left
