Hell bent useless void
Feed your fame paranoid

Wash these hands for a change
One step close by the way

Chorus
Spin around all way
Nothing left
Give it all away
Give it all away

Sell me up jacket-straight
Eat the ones left on my plate

So much sharp so I am smoto (?) days
Doctor ain't it good to live?

Spin around wrong way
Nothing left
Give it all away
Give it all away
Give it all away

Every day give yourself away
Coming on dark and that gives you away
Gives you away

Spin around all way
Nothing left
Give it all away
Give it all away
Give it all away
