Watching, waiting, falling, breathing  
Gaping, wasted, sickly, feelin'  
Winds keep come my way  
I have less to say  
I'm waiting here (3 times)  
Solomon breaks my head  
Kicks me so far down my street  
I am struggling with this time  
I am struggling on my feet  
We go down (2 times)  
There is no down  
Down  
There is no down  
We do without  
There is no (3 times)  
More down  
No more down (3 times)  
Oh  
Solomon waits by the wall  
Spiting from his eyes  
Said his life's become my fault  
Twisted back life  
Might as well get saved by someone  
You're gonna get saved all  
I am grateful for the acknowledgement  
I am guilty of it all  
We go down (2 times)  
There is no down (2 times)  
We do without  
There is no (3 times)  
More down  
Down  
Might as well get save someone  
Might as well get saved by someone  
There is no down  
We do without  
There is no all the way  
All the way
